

Early in September I knew that something was not quite right with my business – I knew GDPR but could not connect with potential clients. After seeing Gareth’s business presentation, I asked him for help. We worked together for 6 weeks - looking at my brand, language, services, marketing, website and even pricing.

Now I know what my business is and more importantly what it does, and I know how I need to communicate that to my audience.

Not only that but 2 weeks ago, Gareth inspired me to finish a course I had started in July. I finished the course in 10 days, took and passed the exam yesterday and am now a certified information privacy professional.

Gareth is a true genius and combined with his generous nature this makes him such an asset to your business.

Working with him has shown me the potential of my business and he has given me the confidence to make the most of every opportunity.

Gareth has made a big impact on me and my business this year - and I want to thank you
